BEFORE: Duffy, Chairman; Jordan and Young, Commissioners

ORDER

BY THE COMMISSION:

This matter arises under the Federal Mine Safety and Health Act of 1977, 30 U.S.C. § 801 et seq. (2000) (“Mine Act”). On January 7, 2008, the Commission received from Calmat Company, d/b/a/ Vulcan Materials Company, Western Division (“Vulcan”) a letter from counsel seeking to reopen a penalty assessment that had become a final order of the Commission pursuant to section 105(a) of the Mine Act, 30 U.S.C. § 815(a).

Under section 105(a) of the Mine Act, an operator who wishes to contest a proposed penalty must notify the Secretary of Labor no later than 30 days after receiving the proposed penalty assessment. If the operator fails to notify the Secretary, the proposed penalty assessment is deemed a final order of the Commission. 30 U.S.C. § 815(a).

On October 3, 2007, the Department of Labor’s Mine Safety and Health Administration (“MSHA”) issued a proposed penalty assessment, A.C. No. 000128052, to Vulcan for an order and a citation. Vulcan states that it inadvertently sent the form contesting the penalty assessment to MSHA’s local Western District office in Vacaville, California, instead of to the MSHA office located in Arlington, Virginia. Vulcan attached the return receipt allegedly indicating that the

notice of contest was received by MSHA at its office in Vacaville. The Secretary states that she does not oppose Vulcan's request to reopen the penalty assessment.

We have held that in appropriate circumstances, we possess jurisdiction to reopen uncontested assessments that have become final Commission orders under section 105(a). *Jim Walter Res., Inc.*, 15 FMSHRC 782, 786-89 (May 1993) (“*JWR*”). In evaluating requests to reopen final section 105(a) orders, the Commission has found guidance in Rule 60(b) of the Federal Rules of Civil Procedure under which, for example, a party could be entitled to relief from a final order of the Commission on the basis of inadvertence or mistake. *See* 29 C.F.R. § 2700.1(b) (“the Commission and its Judges shall be guided so far as practicable by the Federal Rules of Civil Procedure”); *JWR*, 15 FMSHRC at 787. We have also observed that default is a harsh remedy and that, if the defaulting party can make a showing of good cause for a failure to timely respond, the case may be reopened and appropriate proceedings on the merits permitted. *See Coal Prep. Servs., Inc.*, 17 FMSHRC 1529, 1530 (Sept. 1995).

Having reviewed Vulcan's request, in the interests of justice, we remand this matter to the Chief Administrative Law Judge for a determination of whether good cause exists for Vulcan's failure to timely contest the penalty proposal and whether relief from the final order should be granted. If it is determined that such relief is appropriate, this case shall proceed pursuant to the Mine Act and the Commission's Procedural Rules, 29 C.F.R. Part 2700.
