ORDER

BY THE COMMISSION:

This matter arises under the Federal Mine Safety and Health Act of 1977, 30 U.S.C. § 801 et seq. (2000) (“Mine Act”). On February 28, 2008, the Commission received from Consolidation Coal Company (“Consol”) a motion made by counsel to reopen a penalty assessment that had become a final order of the Commission pursuant to section 105(a) of the Mine Act, 30 U.S.C. § 815(a).

Under section 105(a) of the Mine Act, an operator who wishes to contest a proposed penalty must notify the Secretary of Labor no later than 30 days after receiving the proposed penalty assessment. If the operator fails to notify the Secretary, the proposed penalty assessment is deemed a final order of the Commission. 30 U.S.C. § 815(a).

On November 27, 2007, the Department of Labor’s Mine Safety and Health Administration issued Proposed Assessment No. 000132649 to Consol, proposing penalties for 87 citations and orders that had been issued to the company’s Robinson Run No. 95 Mine during 2007. According to Consol, the proposed assessment was received by the mine’s superintendent,

¹ Commissioner Robert F. Cohen, Jr., assumed office after this case had been filed. A new Commissioner possesses legal authority to participate in pending cases, but such participation is discretionary. *Mid-Continent Res., Inc.*, 16 FMSHRC 1218 n.2 (June 1994). In the interest of efficient decision making, Commissioner Cohen has elected not to participate in this matter.

and the company intended to contest 24 of the proposed penalties. Consol states, however, that due to the assessment form being misplaced during a move to new offices at a new portal of the mine, the operator never filed the contest form. The Secretary states that she does not oppose Consol's request to reopen the penalty assessment as to the 24 proposed penalties.

We have held that in appropriate circumstances, we possess jurisdiction to reopen uncontested assessments that have become final Commission orders under section 105(a). *Jim Walter Res., Inc.*, 15 FMSHRC 782, 786-89 (May 1993) (“*JWR*”). In evaluating requests to reopen final section 105(a) orders, the Commission has found guidance in Rule 60(b) of the Federal Rules of Civil Procedure under which, for example, a party could be entitled to relief from a final order of the Commission on the basis of inadvertence or mistake. *See* 29 C.F.R. § 2700.1(b) (“the Commission and its Judges shall be guided so far as practicable by the Federal Rules of Civil Procedure”); *JWR*, 15 FMSHRC at 787. We have also observed that default is a harsh remedy and that, if the defaulting party can make a showing of good cause for a failure to timely respond, the case may be reopened and appropriate proceedings on the merits permitted. *See Coal Prep. Servs., Inc.*, 17 FMSHRC 1529, 1530 (Sept. 1995).

Having reviewed Consol's motion, in the interests of justice, we remand this matter to the Chief Administrative Law Judge for a determination of whether good cause exists for Consol's failure to timely contest the penalty proposal and whether relief from the final order should be granted. If it is determined that such relief is appropriate, this case shall proceed pursuant to the Mine Act and the Commission's Procedural Rules, 29 C.F.R. Part 2700.
